Continuation Sheet (PTOL-303)

Application No.

Continuation of 3. NOTE:

The proposed amendments, such that the claims are drawn to an industrial fabric rather than an industrial belt, raise new issues that would require further consideration and/or search.

Continuation of 11. does NOT place the application in condition for allowance because:

Applicant's arguments are not persuasive. The applicant has failed to show that a fabric comprising fibers having a denier of 10 to 200 denier is incapable of being used as claimed. The applicant simply asserts that Exhibit I, filed 4/25/2008, demonstrates that the claimed industrial belts "typically" use yarns having a larger diameter and that Exhibit II, filed 4/25/2008, demonstrates that industrial belts "typically" use yarns with linear density of around 2444 denier or higher. In addition, due to the proposed amendments not being entered, applicant's arguments are not commensurate in scope with the current claims.
